

Soils, ground investigation and foundations

A collection of BRE expert guidance on ground assessment, design and movement of foundations, and ancillary works

Introduction

Welcome to the BRE Expert Collections.

IHS BRE Press is the exclusive publisher of BRE publications. Publications are produced in various series, which are outlined below. Information on how to purchase BRE publications is given on the next page, together with information about BRE and IHS.

This pdf contains a valuable collection of short BRE publications on ground assessment, design and movement of foundations, and ancillary works. It is one of a series of compilations of BRE background documents and current guidance and advice on the built environment, each offering exceptional value for construction professionals.

Adobe Acrobat Reader X or later for Windows or Macintosh is required to run this pdf. The pdf can be searched using the bookmarks panel and the links from the emboldened text on the Contents pages.

BRE publication types

Digests are authoritative summaries of the state-of-the-art on specific topics in construction design and technology. They draw on BRE expertise and provide essential support for all involved in design, specification, construction and maintenance.

Information Papers summarise recent innovation and research findings, and give advice on how to apply this information in practice.

Good Building Guides give concise guidance on the principles and practicalities of achieving good-quality building. These highly illustrated practical guides draw on BRE experience and research, and other sources, to provide clear technical advice and solutions.

Good Repair Guides are an extensively illustrated series, providing practical information on the identification, diagnosis and repair of defects. Good Repair Guides look at what went wrong, explain why, and give practical advice on how to put it right.

Books, reports and manuals present research, innovation, best practice and case studies in more detail.

BRE Connect Online is an online subscription to **all** BRE publications. Information about BRE Connect Online is included [HERE](#).

Buying BRE publications

Online: www.brebookshop.com to order hard copy and pdf publications

Tel: +44 (0) 1344 328038, Email: brepress@ihs.com

Mail: IHS BRE Press, The Capitol Building, Oldbury, Bracknell RG12 8FZ, UK

About BRE

BRE Group (BRE) is a world-leading centre of built environment expertise, research and training, and includes a third-party approvals organisation offering certification of products and services to international markets.

BRE is owned by BRE Trust, the largest UK charity dedicated specifically to research and education in the built environment. BRE Trust uses the profits made by BRE to fund new research and education programmes that advance knowledge, innovation and communication for public benefit.

Information about BRE can be found [HERE](#).

About IHS

IHS (NYSE: IHS) is the leading source of information, insight and analytics in critical areas that shape today's business landscape. Businesses and governments in more than 165 countries around the globe rely on the comprehensive content, expert independent analysis and flexible delivery methods of IHS to make high-impact decisions and develop strategies with speed and confidence. IHS is the exclusive publisher of BRE publications.

IHS Global Ltd is a private limited company registered in England and Wales (no. 00788737).

Registered office: The Capitol Building, Oldbury, Bracknell, Berkshire RG12 8FZ. www.ihs.com

Contents

Ground assessment

Optimising ground investigation	DG 472
A simple guide to in-situ ground testing:	
Part 1 – What is it and why do it?	IS 1
Part 2 – Cone penetration testing	IS 2
Part 3 – Flat dilatometer testing	IS 3
Part 4 – Dynamic probing	IS 4
Part 5 – Pressuremeter testing	IS 5
Part 6 – Large-diameter plate loading tests	IS 6
Part 7 – Geophysical testing	IS 7
Desiccation in clay soils	DG 412

Foundation design

Simple foundations for low-rise housing:	
Part 1 – Site investigation	GG 39-1
Part 2 – ‘Rule of thumb’	GG 39-2
Part 3 – Groundworks: getting it right	GG 39-3
Low-rise building foundations on soft ground	DG 471
Foundations for low-rise building extensions	GG 53
Building on brownfield sites:	
Part 1 – Identifying the hazards	GG 59-1
Part 2 – Reducing the risks	GG 59-2
Development of sites containing expansive ferrous slags	IP 8/05
Pfa grouts for stabilising mine workings	IP 10/06
Low-rise buildings on fill:	
Part 1 – Classification and load-bearing characteristics	DG 427-1
Part 2 – Site investigation, ground movement and foundation design	DG 427-2
Part 3 – Engineered fill	DG 427-3

Low-rise building foundations: the influence of trees in clay soils	DG 298
Low-rise buildings on shrinkable clay soils:	
Part 1	DG 240
Part 2	DG 241
Principal drivers for reusing foundations	IP 5/07
Sustainability in foundations	IP 11/10
Foundation movement and damage	
Why do buildings crack?	DG 361
Assessment of damage in low-rise buildings	DG 251
Simple measuring and monitoring of movement in low rise buildings:	
Part 1 – Cracks	DG 343
Part 2 – Settlement, heave and out-of-plumb	DG 344
Monitoring building and ground movement by precise levelling	DG 386
Cracks caused by foundation movement	GR 1
Damage to buildings caused by trees	GR 2
Pruning trees to reduce water use: summaries of research, conclusions and recommendations	IP 7/06
Ancillary works	
Basement construction and waterproofing:	
Part 1 – Site investigation and preparation	GG 72-1
Part 2 – Construction, safety, insulation and services	GG 72-2
Below-ground drainage systems	GG 78
Hardcore for supporting ground floors of buildings:	
Part 1 – Selecting and specifying materials	DG 522-1
Part 2 – Placing hardcore and the legacy of problem materials	DG 522-2
Soakaway design	DG 365
